Embedded Approach

AI Engineerings embedded or deployed for business unit projects and products.

“Shared services teams need to support and amplify the value of the teams they partner with... I’m so thankful that’s what I found... Thank you Jason for your stellar partnership.”

Nick Cannon
CTO, Animation Studios

The background of the slide features three Iron Man suits standing in a museum-like setting with a grid-patterned wall. From left to right, the suits are Iron Man (gold and red), Iron Man 2 (gold and red), and Iron Man 3 (dark red and gold).

**“You and your team are valued
and do a great job for us.
Thank you!”**

Head of Technology
Marvel Studios

**“Thanks to your team, Jason!
They were just fantastic!”**

Owner ...

I agree, this is great and yes, the key is the NAT. Thanks [redacted] !

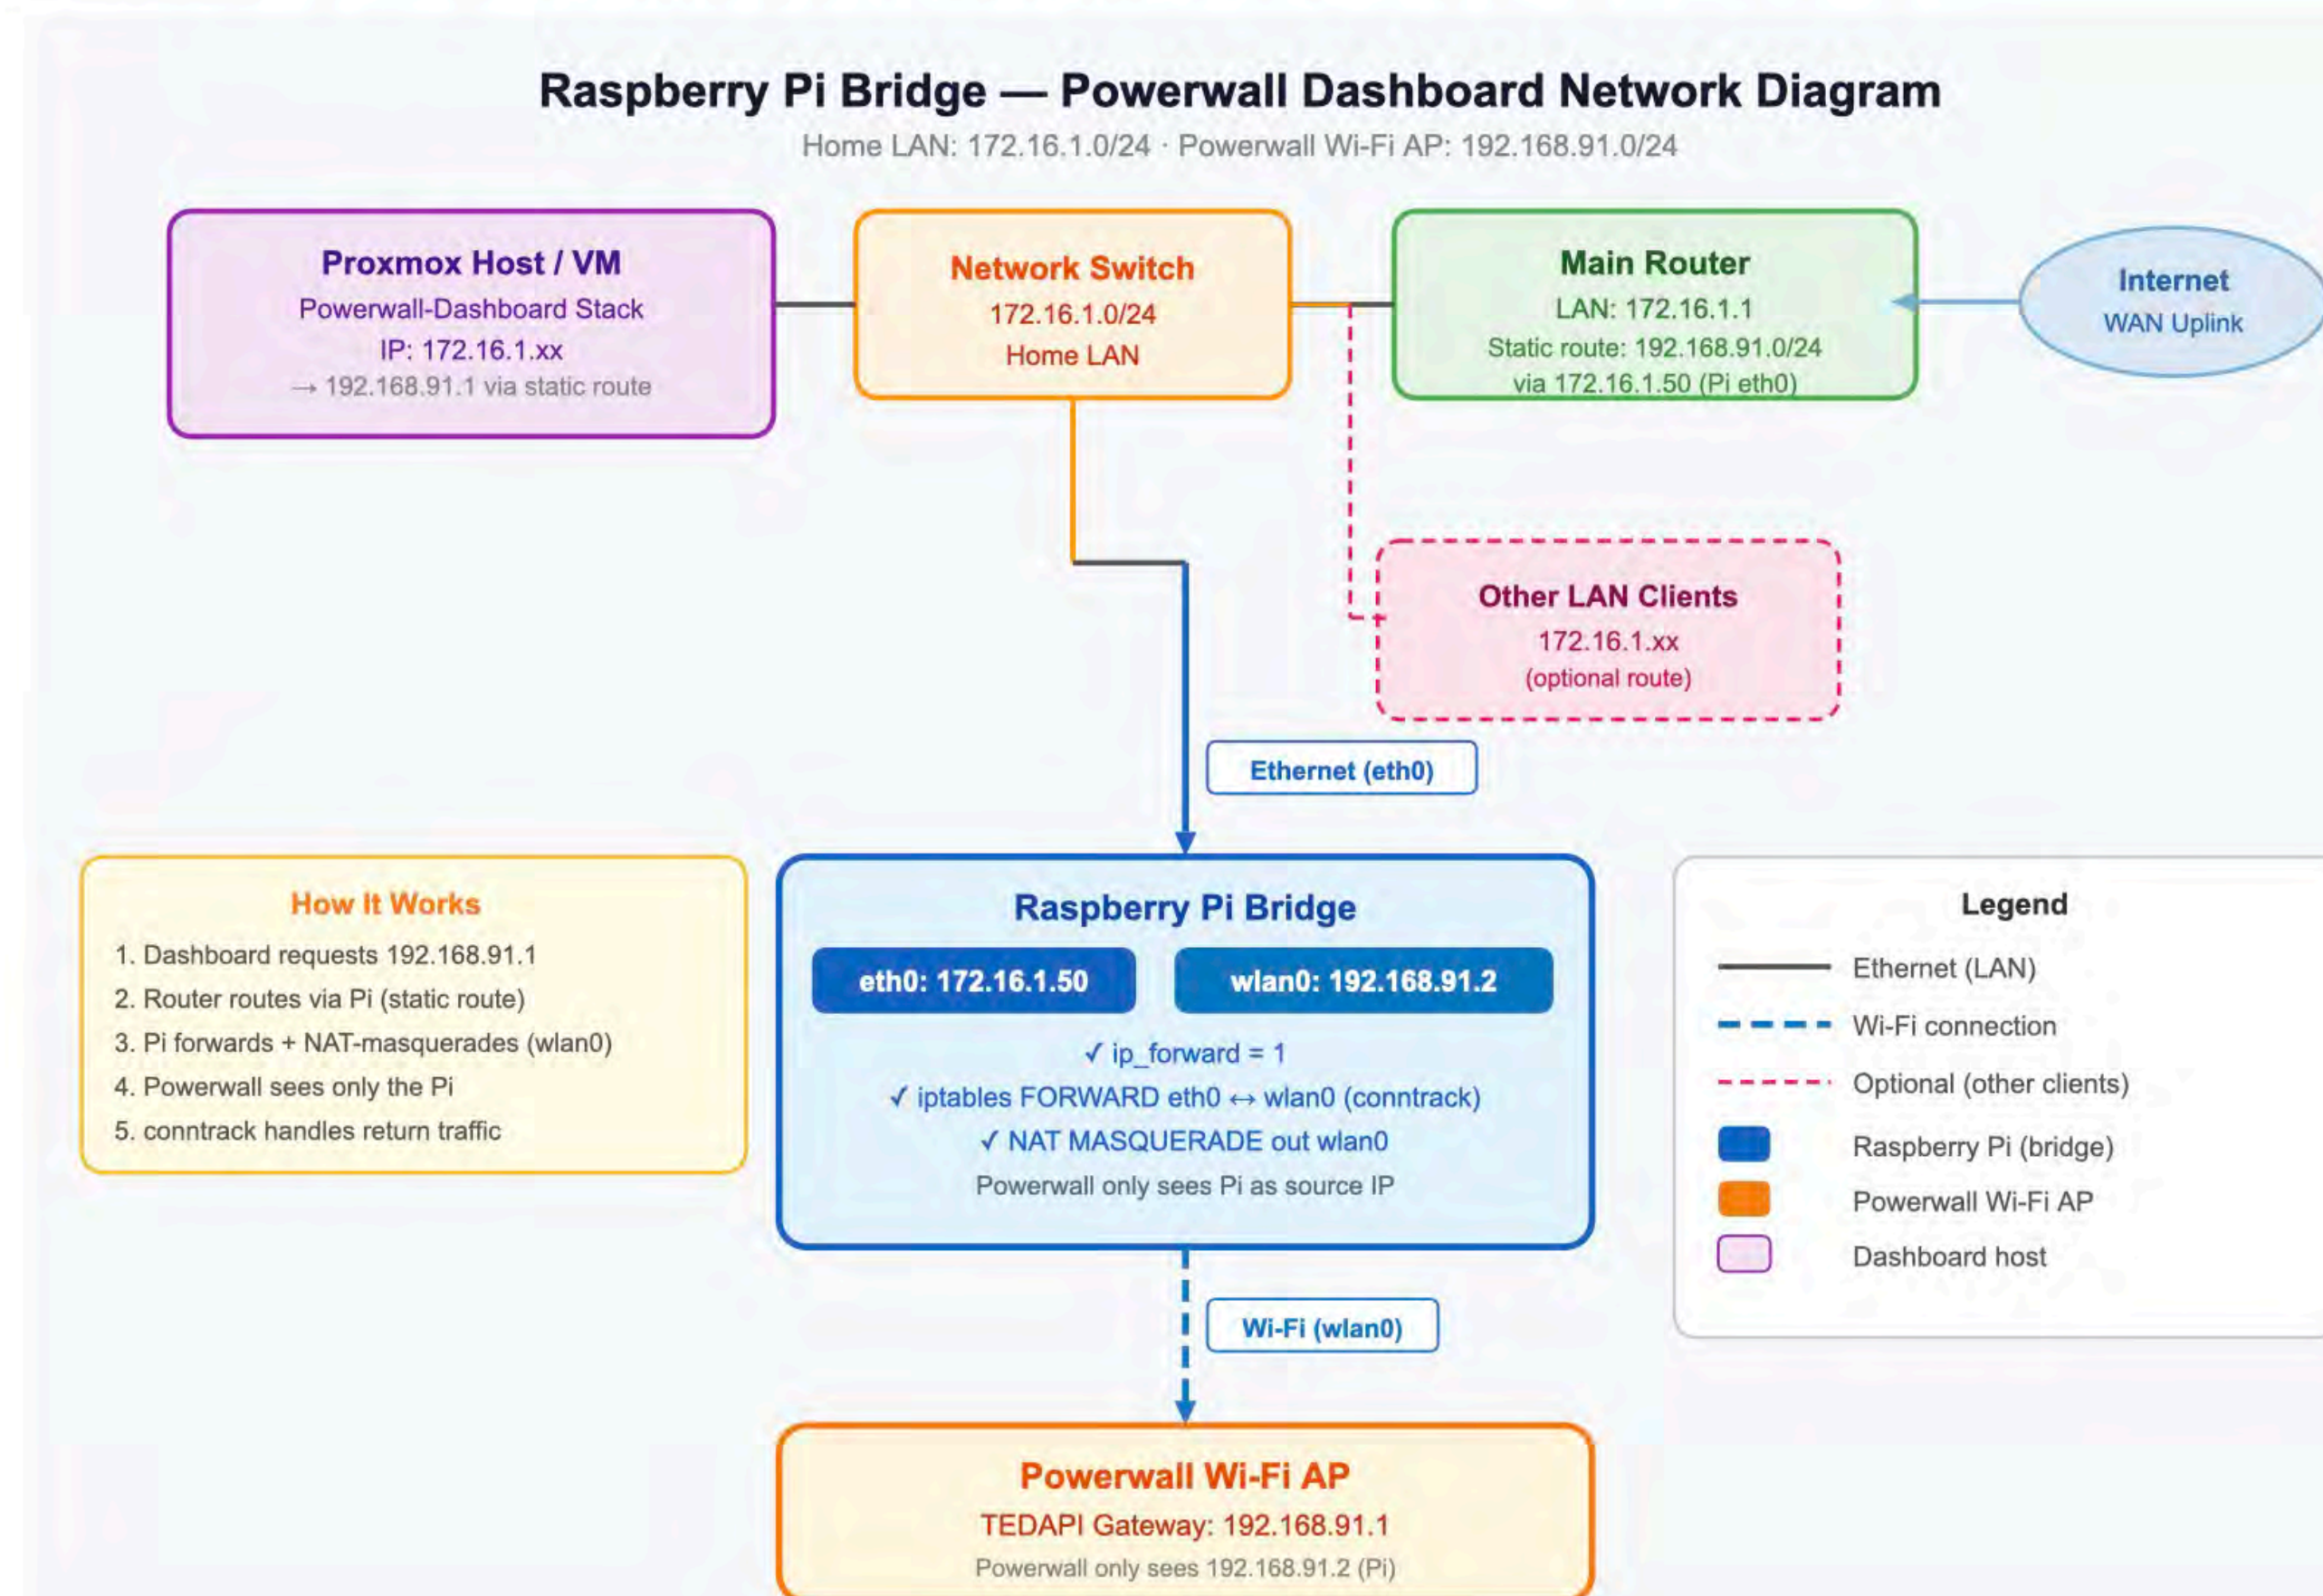

[@jasonacox-sam](#) can you build an abstract SVG type diagram of this and store a rendered image? I'd like to use that in the README or gist.

[@jasonacox](#) — here is the network diagram for the Raspberry Pi bridge setup:

Do the Impossible

*The future of work isn't **humans vs. AI**
It's **humans with AI**, doing work that was
previously **impossible**.*
